

When you pick up a toy and then leave somewhere else, it won't respawn in its initial location. Instead, that toy will wait for you in the same place where you left it. The best way to solve this problem is to go back to the toy basket after you collect 4 toys. Thanks to this you will reduce the probability of missing a toy.

- [Monkey](#)
- [Zebras](#)
- [Mole](#)
- [Rhinoceroses](#)
- [Goat](#)
- [Elephants](#)

## Lemurs

---

One **lemur** lies next to the big **brush**. Approach the toy and pick it up.

Another lemur is on the **drawer**. The best way to reach this toy is to use the geyser.

This **lemur** is on the sofa placed on a stone mountain.

The last lemur is on the table next to zebra - on the top of the mountain.

## Lion

---

A piece of meat for the lion is hidden under water.

If you already have meat, run to the **lion**. The animal will come out of the cave and fall near you. Pick the lion up and bring it to the basket.

**Bird**

---

To get a bird's mascot, you must first get a **weapon** - you will find it in the wardrobe. To reach it you have to jump on the stones or launch yourself upwards with a geyser. The picture above shows the exact place where you will find the weapon.

You now have a weapon - reach the upper part of the level. There you have to perform several tasks. Take the egg in the nest first. This will summon a large bird and release a small toy. Remember to move away immediately. Otherwise, the bird will sit on you (this means that you will have to load your last save).

Stand on top near the nest and shoot down a small bird flying around the map. It's best if you keep shooting at one spot - the **bird** will fly towards your bullets.

**Monkey**

---

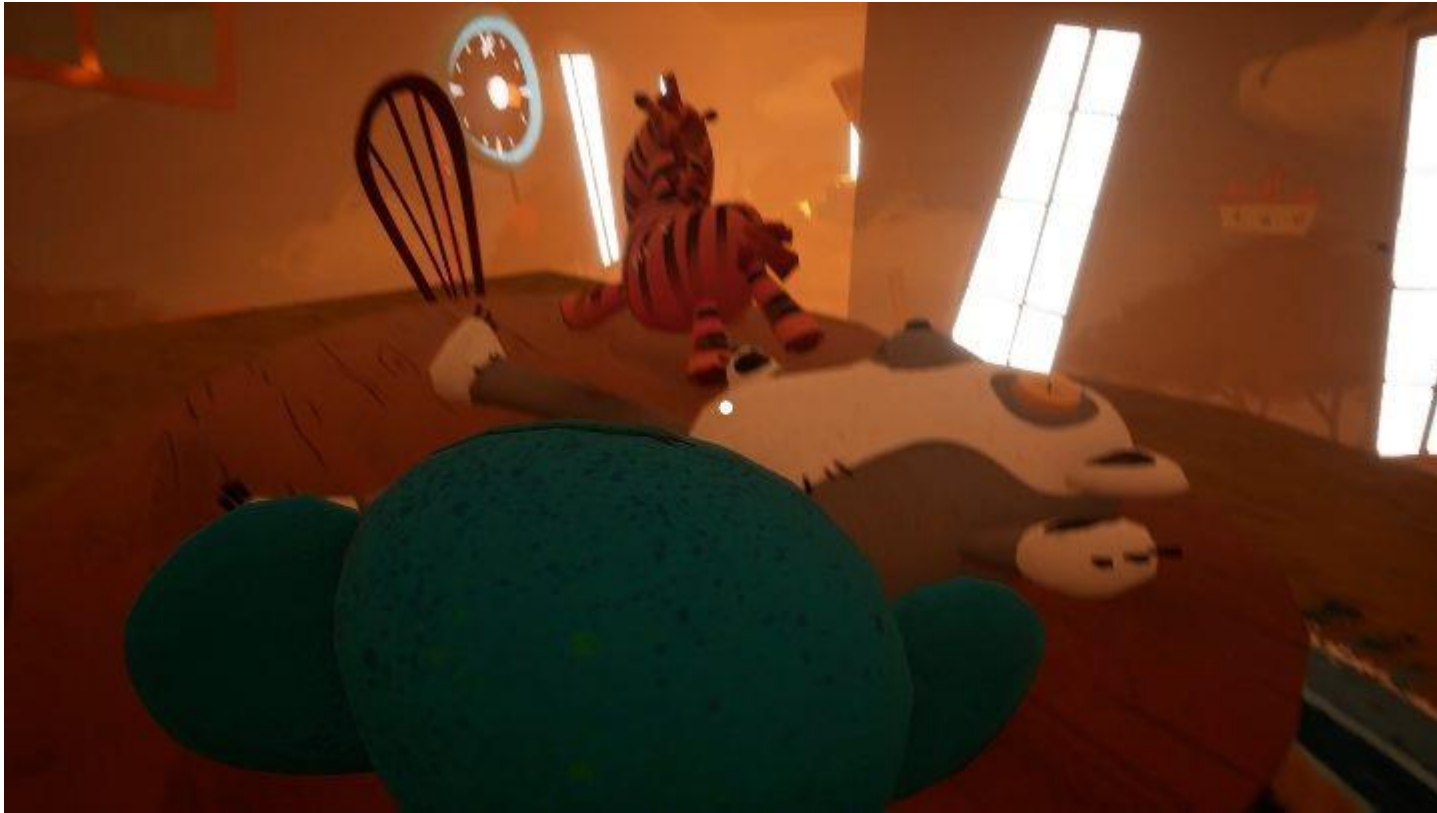

If you have the weapon, you can shoot another toy. Approach the large tree presented in the picture above, and shoot it.

Thanks to that you will shoot down the **monkey**. The toy falls down near the geyser.

**Zebras**

---

One zebra is lying on the table, next to the lemur - the table is at the top of the mountain.

Another **zebra** is in the bucket presented in the picture above - jump into it by using a geyser.

## Mole

---

There are many boxes on the map. Collect the boxes and use them to cover holes made by the mole.

The mole will appear in the last uncovered hole.

## Rhinoceroses

---

Another **toy** is on the shelf hanging on the wall. To reach it, you have to use a geyser to launch yourself upwards. Then, you have to jump down on the lower shelf.

Another rhinoceros is on the drawer.

**Goat**

---

The **goat** is on the boxes.

# Elephants

---

The first elephant is on the decoration hanging on one of the walls. Use the nearby geyser to reach it.

Another **elephant** is on the top of the drawer standing near the basket for the toys. You can reach it by using the nearby geyser.
